**Brooklynn & Andrea's Windmill Hill
Poster and Presentation Rubric**

Objective

Working with your table group, you will analyze data from a 2011 Census Profile about the Bristol Suburb of Windmill Hill. Using the skills of communication, critique, brainstorming and teamwork, your group will create one large poster about one of the topics covered in the census. You will have two hours to research and begin creating your poster on Tuesday and one hour on Friday to finalize before your group presentation that is 2-4 minutes long.

Topics

Each group will cover one of the following topics: population, identity, household composition, people in employment, housing and accommodation or economic activity.

Content Requirements

- Chart (web map, KWL chart or bar graph)
- Statistic (one important fact about your data)
- Picture or drawing (visual should represent your topic)
- Paragraph: 3-5 sentences about something that you found shocking or interesting

Visual Requirements

- At least two colours used
- All text must be neat
- Must have title
- Large text, visible from 2 meters away
- Must include all group member names

Group Roles

- Researcher (finds extra facts from other source)
- Scribe (one person who writes directly onto poster)
- Content leader (makes sure everyone in group knows facts and poster)
- Art and design (makes sure the layout looks good)
- Chart leader (gathers information for chart and leads in designing it)

Performance Requirements

- Work respectfully with group members
- Divide workload evenly
- Ask for help when needed (first ask one of your group members or classmates, then Brooklynn or Andrea and lastly Mrs. Lomax)
- All group members must speak evenly during presentation, which should be 2-4 minutes
- All group member should be proud of their contribution, and other group members
